David Menton, a Managing Partner of Synova, commented: *“We are delighted to have been shortlisted by such a distinguished group of judges for four separate awards this year. It is a strong validation of our commitment to investing in and supporting high quality British growth businesses and management teams. As a firm we have delivered on a number of key milestones over the past twelve months, which include two strong exits – Kinapse at 16x cost and TLG Brands at 3x cost, six new investments, strong year-on year growth across our portfolio and the successful raising of our third fund, which was heavily oversubscribed.*

None of this could have been achieved without the continued hard work of the entire Synova team, the strong partnerships that have been developed with our partners across the portfolio, and the loyal support our investors.” –ENDS-
